Contributions should, preferably, be sent to a member of the Advisory Editorial Board (addresses are given in the first issue of each volume) who is familiar with the research reported, or to one of the Editors:

D.C. CLARY
Editor of Chemical Physics Letters
Mathematical and Physical Science Division
University of Oxford
9 Parks Road
Oxford OX1 3PD, UK
e-mail: cpl@chem.ox.ac.uk

V. SUNDSTRÖM
Editor of Chemical Physics Letters
Department of Chemical Physics
Chemical Center, Lund University,
Box 124, S-221 00 Lund,
Sweden
FAX 46-46-2223430

A.H. ZEWAIL
Editor of Chemical Physics Letters
A.A. Noyes Laboratory of Chemical Physics
California Institute of Technology
Mail Code 127-72
Pasadena, CA 91125, USA
FAX 1-626-4050454

After acceptance of the paper for publication, all further correspondence should be sent to the publishers (Elsevier Science B.V., Chemical Physics Letters, P.O. Box 2759, 1000 CT Amsterdam, The Netherlands; e-mail: y.philippo@elsevier.com; Fax: (31-20) 485-2431).

Publication information: Chemical Physics Letters (ISSN 0009-2614). For 2002, volumes 350–365 are scheduled for publication. Subscription prices are available upon request from the publisher or from the Regional Sales Office nearest you or from this journal's website (http://www.elsevier.com/locate/cplett). Further information is available on this journal and other Elsevier Science products through Elsevier's website (http://www.elsevier.com). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues must be made within six months of our publication (mailing) date.

© 2002 Elsevier Science B.V. All rights reserved

US mailing notice – Chemical Physics Letters (ISSN 0009-2614) is published weekly by Elsevier Science B.V. (P.O. Box 211, 1000 AE Amsterdam, The Netherlands). Annual subscription price in the USA US$ 10,264.00 (valid in North, Central and South America), including air speed delivery. Periodicals postage paid at Jamaica, NY 11431. USA POSTMASTERS: Send address changes to Chemical Physics Letters, Publications Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. **AIRFREIGHT AND MAILING** in the USA by Publication Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003.

CHEMICAL PHYSICS LETTERS

KEY GUIDELINES FOR AUTHORS

- **Abstract.** All manuscripts require an abstract not exceeding 100 words.
- **References.** A maximum of 35 single references is permitted; multiple references (referring to more than one paper) are to be avoided.
- **Figures.** The manuscript should contain no more than 5 normal-sized figures.
- **Length.** The manuscript should not exceed the equivalent of 2500 words, including text, tables and figure captions (approximately 12 double-spaced pages).
- **Disk.** Authors are required to submit a disk with an electronic file matching exactly the hard-copy of the final version of their manuscript.
- **Submission.** Manuscripts should be sent to one of the editors or preferably to a member of the advisory editorial board who is familiar with the research field. When submitting a manuscript, authors are requested to suggest the names, addresses and e-mail of three appropriate referees.
- **Communication.** The full postal address, fax number and e-mail address of the corresponding author must be given on the first (title) page of the manuscript.
- **Enquiries.** For specific enquiries on the preparation of electronic artwork, consult http://www.elsevier.com/locate/authorartwork/

  For enquiries relating to the status of accepted articles through our Online Article Status Information System (OASIS), author Frequently Asked Questions and any other enquiries relating to Elsevier Science, please consult http://authors.elsevier.com elsevier.com/locate/authors/

  Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided when an article is accepted for publication.

Complete Instructions to Authors are to be found on the last pages of each volume and also at: http://www.elsevier.com/locate/cplett
Authors employing LaTeX may download the Elsevier LaTeX instruction package from: www.elsevier.com/locate/latex
For further information, please see the Instructions to Authors.

This journal and the individual contributions contained in it are protected by the copyright of Elsevier Science B.V., and the following terms and conditions apply to their use:

Photocopying
Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.
Permissions may be sought directly from Elsevier Science via their homepage (http://www.elsevier.com) by selecting "Customer support" and then "Permission". Alternatively you can send an e-mail to: permissions@elsevier.co.uk, or fax to: (+44) 1865 853333.
In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; phone: (+1) (978) 7508400, fax: (+1) (978) 7504744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; phone: (+44) (20) 7631 5555; fax: (+44) (20) 7631 5500. Other countries may have a local reprographic rights agency for payments.

Derivative Works
Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.
Permission of the publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage
Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article.
Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.
Address permissions requests to: Elsevier Science Global Rights Department, at the mail, fax and e-mail addresses noted above.

Notice
No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.
Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

AUTHORS

If you want to make the best of your artwork send it in the correct digital format

All articles accepted for publication in Elsevier Science journals are processed using electronic production methods. Authors should therefore ensure that their artwork conforms to the following guidelines:

- **Colour and greyscale images** should be supplied as **TIFF** or **EPS** files (resolution 300 dpi).
- **Line drawings (black & white or colour)** should be supplied as **EPS** files

If you need help to create files in these formats, go to ***www.elsevier.com/locate/authorartwork/formats***

Please also note:

- We still need a good quality hard copy of each figure in case the electronic file cannot be used. The hard copy and electronic file must match exactly.
- We can use floppy disks, ZIP disks or CD-ROM. Artwork files should be on a separate disk or CD to article text files.
  www.elsevier.com/locate/authorartwork/media
- Only standard fonts should be used, for example:
  Times, Times New Roman, Helvetica, Arial, Symbol
  www.elsevier.com/locate/authorartwork/formats
- Lines should be a minimum width of 0.5 pt.
  www.elsevier.com/locate/authorartwork/linewidth
- Only standard colours should be used.
  www.elsevier.com/locate/authorartwork/colours
- Lettering should be a consistent size and appropriate to the size of the figure.
  www.elsevier.com/locate/authorartwork/sizing
- An image which looks acceptable on a computer may not reproduce well, so it is important to ensure that these guidelines are followed.

Our Author Artwork website has all the information you need on how to submit your artwork correctly. Visit it today at:

Electronic manuscripts: An electronic version (any format) of the accepted manuscript is crucial for fast processing. It may be submitted on a diskette with the manuscript. The type of operating system and wordprocessor should be indicated. Authors employing LaTeX may download the Elsevier LaTeX instruction package from: http://www.elsevier.com/locate/latex. For further information, please see the Instructions to Authors.

Authors in Japan please note: Upon request, Elsevier Science Japan will provide authors with a list of people who can check and improve the English of their paper (*before submission*). Please contact our Tokyo office: Elsevier Science K.K., 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044. Tel.: (03) 5561-5032; fax: (03) 5561-5045.

Chemical Physics Letters has no page charges.

For a full and complete Instructions to Authors, please refer to the last pages of each volume. The instructions can also be found on the journal's web site under http://www.elsevier.com/locate/cplett

♾ The paper used in this publication meets the requirements of ANSI/NISO Z39.48-1992 (Permanence of Paper).

Authors did you know...

- Your article published with Elsevier Science is also included in ScienceDirect, the world's largest scientific network, reaching over 9 million scientists and researchers at **www.sciencedirect.com.**
- If your institute or organisation currently subscribes to ScienceDirect, you now have access to the full text of those journals in your subscription package at your desktop.
- ScienceDirect allows you to keep track of citations to your article via e-mail. You can set up a personal profile to ensure you are kept up-to-date with publications in your specialist areas of research.
- The publication of your article is announced in advance to thousands of registrants to our FREE e-mail alerting service **ContentsDirect**. Find out more by accessing **www.elsevier.com/locate/contentsdirect**
- Your article will be available in the ScienceDirect electronic archive and as such accessible to the millions of scientists visiting our database for an unlimited period of time.

ScienceDirect provides the articles **you** need for **your** research – **www.sciencedirect.com**

SCIENCE DIRECT™ SCIENCE DIRECT™ WEB editions

To find out more about publishing your article with Elsevier Science, access **www.elsevier.com/homepage/authors**

The Publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. Please refer to the online version of the Guide for Authors at http://www.elsevier.com/locate/cplett

SCIENCE DIRECT™

Full text of this journal is available, on-line from **ScienceDirect**. Visit **www.sciencedirect.com** for more information.

CONTENTS direct

This journal is part of **ContentsDirect**, the *free* alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. You can register for **ContentsDirect** online at: **www.elsevier.com/locate/contentsdirect**
